

MicroScribe

Precision Mechanical Arm - High performance sensors track the position and orientation of the stylus tip. Graphite links create a robust yet lightweight structure. Counter-balanced for a comfortable feel.

Included Digitizing Software - Allows 3-D models to be constructed using points, lines, polygons, or splines. Data can be exported in formats including .dxf, .obj, .txt and others.

Available Drivers - Allow MicroScribe-3D to function within popular graphic modeling packages.

Affordable - Ideal for studio, office or home.

Compatible - Connects to PC, Macintosh, SGI and others.

Versatile Base - Sits on desk, mounts on tripod, or attaches to any surface.

4 Available Models - MicroScribe-3D for Multimedia/Animation, MicroScribe-3DX for CAD/Scientific, and MicroScribe-3DL and MicroScribe-3DLX for digitizing very large objects.

High Accuracy (100 point ANSI Sphere)

MicroScribe-3D . . . 0.015" (0.38 mm)

MicroScribe-3DX . . . 0.009" (0.23 mm)

MicroScribe-3DL . . . 0.017" (0.43 mm)

MicroScribe-3DLX . . 0.012" (0.30 mm)

Huge Workspace

MicroScribe-3D . . . 50" (1.27 m) Sphere

MicroScribe-3DX . . . 50" (1.27 m) Sphere

MicroScribe-3DL . . . 66" (1.67 m) Sphere

MicroScribe-3DLX . . . 66" (1.67 m) Sphere

Rapid Sampling Rate . . . 1,000 points/second

Small Footprint . . . 6" x 6"

Serial Interface . . . RS232

MicroScribe-3D Hardware Options

Pris i SEK, moms och frakt tillkommer

MicroScribe-3D The Original - Standard Model

Accurate to 0.015" (0.38 mm)

Workspace Size: 50" (1.27 m) 35.000:-

MicroScribe-3DX The High Accuracy Model

Accurate to 0.009" (0.23 mm)

Workspace Size: 50" (1.27 m) 42.000:-

MicroScribe-3DL Large-Workspace Model

Accurate to 0.017" (0.43 mm)

Workspace Size: 66" (1.67 m) 53.000:-

MicroScribe-3DLX High-Accuracy, Large-Workspace Model

Accurate to 0.012" (0.30 mm)

Workspace Size: 66" (1.67 m) 59.000:-
